To Whom It May Concern,

As it is known, in line with the efforts to increase the product and service diversity and the demands of our members, the BISTECH System improvement and development efforts are continuing and the new version, called 2.16, is planned to be put into operation on **March 7, 2022**.

BISTECH Member Free Test Environment (pre_prod test environment) will be updated on January 24, 2022 with the release of 2.16 and the new version is expected to be tested and checked by members prior to deployment.

Version 2.16 is planned to include the improvements listed below; Details of the changes in the relevant version, access to test environments and proofing plan will be notified to you with a separate announcement.

- Improvement regarding submitting trade cancel request at Debt Securities Market, Equity Market and Derivatives Market via BISTECH Trading Workstation (TW) terminals will be made. In this context, "Send Cancel Trade Request" button will be added into clearing trades windows. In addition, the "Pending Trade Cancel Requests" window has been created as a new window where cancel requests will be monitored. In order to track the transaction messages regarding trade cancellations over system, the TradeCaptureReport (35=AE) message in FIX Drop Copy channels (FIX DC) will be used.
- Some Messages in BISTECH Consolidated Feed TIP Specification document will be updated.
