	Approval Date	18/09/2015
	Prepared by	Equity Market Department, and Corporate Development & Information Technologies
	Distribution	Members, ISVs and Data Vendors

**To Whom It May Concern,**

Refer to : a) General Letter no. 4133 dated 28/02/2014  
b) Announcement no. 2015/60 dated 08/07/2015

As it is well known, current market applications contained within Borsa İstanbul are being renewed under the name of BISTECH product family, within the framework of strategic alliance agreement signed between Borsa İstanbul A.Ş. and NASDAQ.

As a result of careful observations made throughout the extensive testing period held with the participation of our members, IT service providers and data vendors and the feedbacks that have been received it has been assessed as appropriate to go on with the tests for a while and plan the go-live date for Equity Market on BISTECH systems as 30/11/2015 in order to go live on BISTECH successfully and allow better mitigation of some operational risks.

Thanks to the timeframe which emerged with the new go-live date, new series of go-live rehearsals are planned starting in October, 2015 in order to allow further testing of all systems interactive with BISTECH for all parties and to experience a successful transition. Rehearsals will take place on Saturdays and Mondays. Within the context of the tests the trades executed on Saturday (T+0) will be cleared on next Saturday (T+2). Likewise the trades executed on Monday (T+0) will be cleared next Monday (T+2). Further details for rehearsals will be provided in the coming announcements.

For your information and necessary actions.

Sincerely,

  
Tuncay DİNÇ
