DATA PACKAGES FOR DIFFERENT MARKETS

- Equity Market
- Debt Securities Market
- Futures & Options Market
- Precious Metals and Diamond Markets

Investors may have access to the data of the Markets of their choice through different data packages.

WHY SHOULD I USE LEVEL 2 DATA?

Level 2 is the most comprehensive data package which includes information on 5 or 10 price levels. This is the most appropriate package for analysis.

Level 2 provides statistical information on cancelled orders, waiting orders, and realized trades.

Thanks to the price levels provided, it is possible to envisage the likely trade price movements.
