Subject : Announcement Regarding the reopening of the Equity Market Trading Floor.

Dear Members,

Due to the pandemic precautions caused by Covid-19, the Equity Market Trading Floor at the İstinye Campus of the Exchange has been temporarily closed since March 2020. For this reason, the trading terminals allocated for intermediary institutions in Trading Floor have been allowed to be used for remote access until reopening day of the Trading Floor.

Considering the decrease in the number of covid cases and the fact that the majority of the population is vaccinated, it has been decided that the Equity Market Trading Floor will be opened as of June 1, 2022, and brokers of members who actively have seat in the trading floor will be able to submit orders through trading floor terminals.

In this context, our members are required to notify the Data, Technology and Member Services Directorate in case they have any additional or return requests regarding Trading Floor terminals. For those who do not request any change are not required to make any notification.

Kindly submitted to your information.

Yours Sincerely,

Korkmaz ERGUN  
CEO  
Board Member
