# 1 BISTECH TEST ENVIRONMENTS

## 1.1 Test Environments General Information

This document has been prepared for general information about member test environments that support 6 partition structure that provides BISTECH 3.0 dynamic load distribution. All free member test environments serve all markets (Equity Market, Derivatives Market, Fixed Income Market and PMD).

## 1.2 Market Rules

There is no difference in test environments related to the rules of the markets. These rules can be accessed via the links below:

Equity Market:

<https://www.borsaistanbul.com/files/pay-piyasasi-proseduru.pdf>

Derivatives Market:

<https://www.borsaistanbul.com/files/derivatives-market-procedure.pdf>

Fixed Income Market:

[https://www.borsaistanbul.com/files/Borclanma\\_Araclari\\_Piyasasi\\_Proseduru.pdf](https://www.borsaistanbul.com/files/Borclanma_Araclari_Piyasasi_Proseduru.pdf)

PMD:

<https://www.borsaistanbul.com/files/precious-metals-and-diamond-market-procedure-31-pro-11.pdf>

		<b>PROD-LIKE TEST ENVIRONMENT</b>	<b>PRE-PROD TEST ENVIRONMENT</b>
<b>General Info</b>		It is a test environment with the same software version as the production system. In the test environment, the instruments and their prices may differ from the production system.	If there is a new release plan, it is first released for testing in this environment. Otherwise, it has the same software version as the current production system. In the test environment, the instruments and their prices may differ from the production system.
<b>IP Adress (VPN)</b>		10.57.3.146	10.57.3.57

### 1.3 Connection Channels

All test environments can be accessed via the following connection channels.

1. Trading Workstation (TW)\*
2. GIW
3. FIX (FIX Order Entry, FIX Reference Data, FIX Drop Copy)
4. OUCH/ITCH
5. PTRM
6. Data Dissemination (TIP)
7. VAS (Data Analytics System)

\* TW installation and user files can be accessed from the CONNECT Member Platform sub-menus starting with “Verda menu -> Application Software”.

<b>Abbreviations</b>	
<b>ETFs</b>	: Exchange Traded Funds
<b>SPFM</b>	: Structured Products and Funds Market
<b>EMQI</b>	: Equity Market for Qualified Investors
<b>PMTP</b>	: Pre-Market Trading Platform
<b>WL</b>	: Watchlist
<b>Explanations</b>	
✓	: Indicates that relevant market/instrument is included in related phase of session.
---	: Indicates that the related phase of session is not applied to the relevant market/instrument.
*	: Order collection ends within 30 seconds randomly after the relevant hours shown above. Call phase for ETFs is between 10:30-10:56.
**	: Indicates a time that may differ according to the completion of transactions. After 10:56 for ETFs.
***	: Indicates the hours for official auction transaction for instruments with codes ending with ME, MR, MF, MV, MF1, MF2, MG, MC, MS, MS1
****	: Primary market transactions take place within 11:30-16:00.
*****	: Within the scope of Primary Market transactions on half days, trading hours for public offering by book building method in Exchange are between 10:50-12:00, and for shares remaining after use of Pre-emptive Rights, 10:50-12:30.

Detailed information and explanations regarding the sessions are included in the Equity Market Procedure “Appendix 10 - Flow of Trading Sessions in Equity Market” and “Appendix 11 - Phases of Session and Their Descriptions” sections. (<https://www.borsaistanbul.com/files/equity-market-procedure.pdf>)

- Trades can be done only in weekdays and official holidays.
- There won't be any trade in weekends.

## 2 BAP TESCIL TEST ENVIRONMENT

Transactions can be transmitted to the BAP Tescil Test System over remote access lines (VPN) by logging into <https://test-tescil.borsaistanbul.com> with the internet network interface (WEB) user and/or using the Tescil API (application programming interface).

For each investment institution that is a member of Borsa İstanbul, 2 internet network interface (WEB) users and 1 API user were defined and user names were uploaded to <https://connect.borsaistanbul.com>. BAP Tescil users are anonymous users defined for the investment institution, and the investment institution is responsible for the security and updating of codes and passwords. User names are defined to be valid on the BAP Tescil Test system. In order to access the test environment, members can learn their user passwords by contacting the relevant business unit at [bap@borsaistanbul.com](mailto:bap@borsaistanbul.com).

Borsa İstanbul member investment institutions will be able to access the BAP Tescil System at <https://test-tescil.borsaistanbul.com/> on their computers with Borsa VPN connection.

**IP Info:** 10.57.3.43

In order to perform IP/Host resolution correctly, the IP address of 10.57.3.43 must be added to the DNS or host files, and if necessary, the necessary permissions must be granted to access the <https://test-tescil.borsaistanbul.com> address in the firewall settings.

After the user accesses the system, detailed information about the WEB/API application can be accessed by using the info button.
