Subject : BISTECH SR3.10 Member Announcement

To Whom It May Concern,

In line with the efforts to increase product and service diversity and the demands from our members, BISTECH System improvement and development efforts continue, and the new version called 3.10 is planned to be put into production in the **3rd Quarter of 2024**.

Scenario Member Tests will be held on Saturdays during the development of BISTECH 3.10, which includes increasing the number of clearing modules (partitions) and adapting the clearing system architecture to the load distribution brought about by the increasing number of transactions. Test dates will be shared as they approach. Our members are expected to test all their processes by participating in these tests.

BISTECH Member Free Test Environment (pre_prod test environment) will be updated with version 3.10 on March 11, 2024, and as of this date, it is expected to be tested until the new version is put into operation.

In addition, other details regarding the changes that will be included in version 3.10 and access information to test environments will be shared in a later announcement.

For all the questions and issues on the subject please contact bistechsupport_autoticket@borsaistanbul.com .

Kindly submitted to your information.

Yours Sincerely,

Korkmaz ERGUN
CEO
Board Member
