To Whom It May Concern,

BISTECH System that went live on July 2, 2018, on which Equity Market, Derivatives Market, Fixed Income Market (FI) and Precious Metals Market (PMD) are operated together, shall be updated with the new version that we call **Service Release 2.6 (SR 2.6)**.

Version SR 2.6 comprises various enhancements and corrections that have been left to be implemented after the BISTECH Phase 2+ launch on July 2.

The planned release date of version SR 2.6 to the production environment is November 12, 2018. Before the release, the new version is expected to be tested and checked by the stakeholders as well, through the BISTECH Test Environment.

In this regard;

- i. BISTECH Test Environment (pre_prod test environment) has been updated with version SR 2.6.
- ii. Version SR 2.6 member tests shall be performed between October 23, 2018 and November 2, 2018.
- iii. Our members and data dissemination vendors are expected to perform their daily operation, which is currently being performed within the production environment, through the BISTECH Test Environment as well.
- iv. FIX API Reference Data Protocol document has been revised. The necessary adaptations must be made on member software regarding the new fields added to the SecurityDefinition message for FI. The revised document may be obtained from the “FIX Protocol Technical Specification” link under “BISTECH PHASE 2+ (EQ+DT+BAP+KMTP)” tab, on page <http://www.borsaistanbul.com/en/bistechsupport/technical-documents>.
- v. TIP Protocol document has been revised. The related changes are listed under the ‘Revision History’ section of the document.
