Subject : BISTECH 3.01 New Version Transition Postponement Announcement

To Whom It May Concern,

Ref: Announcement dated 27/10/2023 and numbered E-18454353-100.04.02-20939

BISTECH 3.01 new version transition, which was originally scheduled to be implemented on December 11, 2023, has been postponed to **January 15, 2024**.

System enhancement regarding the transmission of up-tick rule information via FIXRD and TIP channels, which were stated to be within the scope of the version transition in the announcement recorded in the reference, and other improvements included in the release were deployed in the pre-prod test environment. During this period, members are expected to continue their tests in the test environment.

Kindly submitted for your information.
