

**BORSA
İSTANBUL**

**PHASE 2 (DERIVATIVES MARKET)
BISTECH FIX CERTIFICATION PROGRAM –
ORDER ENTRY**

2021, Version 1.5

**DERIVATIVES MARKET
BISTECH FIX CERTIFICATION PROGRAM –
ORDER ENTRY**

..... BISTECH FIX ORDER ENTRY STAGE CONNECTIVITY TEST

To The Attention of Our Members:

The purpose of this test is to enable our members to test their own systems as they are in BISTECH FIX environment.

Certification process consists of the sections below:

1. Connectivity Test
2. Order Entry and Functionality
 - a. Base Level
 - b. Medium Level
 - c. Advanced Level
 - d. Market Making
3. Closing the System

Equity Market BISTECH FIX certification (base or advanced levels) will be valid for Derivatives Market BISTECH FIX certification (base level only) as well. Those members who have been certified for Equity Market can skip Connectivity Test Section, Base Level steps in Order Entry and Functionality Section and Closing the System Section. Likewise, the members who have been certified for Market Making in Equity Market can skip the Market Making steps in Order Entry and Functionality Section.

For the members who have been certified for Equity Market;

- ***If they want to have Base Level certificate for Derivatives Market, no additional certification process is required.***
- ***If they want to have Medium Level certificate for Derivatives Market, only Medium Level steps in Order Entry and Functionality Section is required.***
- ***If they want to have Advanced Level certificate for Derivatives Market, both Medium Level steps and Advanced Level steps in Order Entry and Functionality Section are required.***

For the members who do not have any BISTECH FIX certificate, Connectivity Test Section, Base Level steps in Order Entry and Functionality Section and Closing the System Section are required. But Medium Level, Advanced Level and Market Making steps are optional.

Certification Steps	Steps That Members Are Responsible For														
	Does Not Have Equity Market Certification						Has Equity Market Base/Advanced Certification						Has Equity Market Market Making Certification		
	Deriv. Base	Deriv. Medium	Deriv. Advanced	Deriv. Base + MM	Deriv. Medium + MM	Deriv. Advanced + MM	Deriv. Base	Deriv. Medium	Deriv. Advanced	Deriv. Base + MM	Deriv. Medium + MM	Deriv. Advanced + MM	Deriv. Base + MM	Deriv. Medium + MM	Deriv. Advanced + MM
1. Connectivity Test															
2. Order Entry and Functionality															
a. Base Level Steps															
b. Medium Level Steps															
c. Advanced Level Steps															
d. Market Making Steps															
3. Closing the System															

Please perform the transactions below in order and make sure to check the messages incoming at every step when you carry out these transactions.

First, determine the impact expected to occur when order is sent to the system.

When a transaction is sent to the system, the integrity of the message and whether it is accurately processed in the system of the member or not is controlled. After that control, the proper checkbox under each step will be ticked regarding whether expected impact occurred or not (Expected messages are received / Problem with messages).

Inform the officers immediately if an unexpected situation occurs.

Please send the document to Borsa Istanbul officers after filling the part at the end of it.

Legal Liability fully pertains to the member in disputes which may arise between the customers and members who do not use optional order and transaction functions, in their FIX programs, which are taking part in existing transaction rules of Derivatives Market and allowed by Derivatives Market to be used with BISTECH FIX.

For this reason, we recommend our members to inform their customers on this subject and form the proper legal basis with their customers.

Our members are fully responsible for faultless operation of their own member systems.

 FAILOVER TO SECONDARY GATEWAY 29

 TEST EVALUATION 30

SECTION 1: CONNECTIVITY TEST

1. Logon with Password Change

- Send the first Logon message of the day with sequence number 1. (Password=LLL)
- Receive Logout message from the system with “Password Expired” message.
(SessionStatus=8 – Password Expired)

Expected messages are received. Problem with messages

- Send Logon message with Password Change. (554=LLL 925=MMM). Receive Logon message from the system with “Password Changed” status.

Expected messages are received. Problem with messages

2. Logout Message

- Send Logout message and receive Logout message from the system with “Logout Complete”.

Expected messages are received. Problem with messages

3. Logon Message with Reset Sequence Number Flag

- Send Logon message with reset sequence number. (ResetSeqNumFlag=Y, SeqNum=1).
Receive Logon message from the system with “Active” status. (SessionStatus=0 SeqNum=1)

Expected messages are received. Problem with messages

4. Sending Resend Request Message

Enter Order

- Send below orders to the system and receive Execution reports (Orders should be Limit, Day order, Position should be “Open” and Account should be “DE-1”):

- F_GARAN1221 BUY Price: 7.00 TRY Quantity: 5 [ClOrdID=1]
- F_GARAN1221 BUY Price: 7.25 TRY Quantity: 10 [ClOrdID=2]
- F_GARAN1221 BUY Price: 7.50 TRY Quantity: 15 [ClOrdID=3]

Expected messages are received. Problem with messages

Logout

- Send Logout message and receive Logout message.

Expected messages are received. Problem with messages

Executions

While user is logged out, orders that will match with user's orders will be entered to the system. Orders of the user will be executed and execution messages (Execution Report - Trade) will be written to the message queue of the user.

Logon and Resend Request

- Send Logon message to the system without resetting the sequence number and receive Logon message from the system.

Expected messages are received. Problem with messages

- Send Resend Request message to the system due the fact that higher sequence number than expected is received. Following Execution Report messages will be received from the system as response to the Resend Request:
 - F_GARAN1221 BUY Price: 7.00 TRY Quantity: 5 order fully traded
 - F_GARAN1221 BUY Price: 7.25 TRY Quantity: 10 order fully traded
 - F_GARAN1221 BUY Price: 7.50 TRY Quantity: 15 order fully traded

Expected messages are received. Problem with messages

5. Logout

- Send Logout message and receive Logout message.

Expected messages are received. Problem with messages

6. Replying Resend Request Message

Before user logs in to the system, expected sequence number on the server side will be decreased to a lower number manually. When user logs in to the system without resetting the sequence number, Resend Request message will be sent from the system.

Logon

- Send Logon message without resetting Sequence number and receive Logon message from system.

Expected messages are received. Problem with messages

- Resend request message will be received from the system right after the Logon message. Resend Request message must be replied according to below principals. System will not respond with any message if there is not a problem with resent messages.
 - Sequence Reset message with GapFillFlag=Y and NewSeqNum field should be sent instead of session messages that will be resent.
 - Application messages should be resent with PossDupFlag=Y and OrigSendingTime fields.

Expected messages are sent. Problem with messages

7. Logout

- Send Logout message and receive Logout message.

Expected messages are received. Problem with messages

SECTION 2: ORDER ENTRY AND FUNCTIONALITY

Information about the instruments that will be used during test are listed below:

Connectivity Test and Base Level Steps	Partition	Base Price
F_GARAN1221	1	7,76
F_SAHOL1221	2	9,9
F_AKBNK1221	1	7,47

Medium Level Steps	Partition	Base Price
O_XU030E1221C100.000	2	9,3
TM_O_USDTRYKE311221C3000	2	0,5
F_EURUSD1221	2	1,12
F_XU0301221	2	102
F_USDTRYM2-M1	2	
O_AKBNKE1221P8.0	1	0,15

Advanced Level Steps	Partition	Base Price
O_XU030E1221C100.000	2	9,3
O_XU030E1221C102.000	2	9,4
F_TUPRS1221	2	80
F_TCELL1221	2	12

Market Making Steps	Partition	Base Price
F_EURTRY1221	2	3,25
F_YKBNK1221	2	3,91

Reference Data (Security Definition, Security Status, Price Limits vs.) regarding the instruments that are listed will be available through FIX Reference Data connection.

Notes

- ✓ Orders should be **Limit** priced **Day** and **Position = Open** orders unless it is noted otherwise.
- ✓ For the members who do not support order amendment (OrderCancelReplace) message, order cancelation + new order submission can be used instead of order amendment. In that case, order priority is lost even if order amendment may keep the order priority.
- ✓ Orders should be submitted with Account = "DE-1".
- ✓ For On Close and GTS orders, the value of "KAP" session in FIX protocol is "1".

DropCopy Connection

Connect to the DropCopy Port (will be given before test) with FIX DropCopy user. User should be stay connected during the test. After test is completed, message log file of DropCopy connection will be requested in addition to the message log files of FIX Order Entry connection.

- Send Logon message with resetting sequence number and receive Logon message from the system.

Expected messages are received. Problem with messages

BASE LEVEL

CONTINUOUS AUCTION

1. For instrument **F_GARAN1221**, enter orders listed below and receive Execution Reports (Accepted).

- i. F_GARAN1221 – BUY – 20 Quantity – 6.90 TRY – Day [COrdID=10]
- ii. F_GARAN1221 – BUY – 90 Quantity – 6.90 TRY – Day [COrdID=20]
- iii. F_GARAN1221 – BUY – 80 Quantity – 6.80 TRY – Day [COrdID=30]
- iv. F_GARAN1221 – BUY – 70 Quantity – 6.70 TRY – Day [COrdID=40]
- v. F_GARAN1221 – BUY – 60 Quantity – 6.60 TRY – FAK (IOC) [COrdID=50]
- vi. F_GARAN1221 – BUY – 50 Quantity – 6.80 TRY – GTD (31.12.2020) [COrdID=60]
- vii. F_GARAN1221 – SELL – 10 Quantity – 7.10 TRY – GTD (31.12.2020) [COrdID=70]
- viii. F_GARAN1221 – SELL – 20 Quantity – 7.20 TRY – FAK (IOC) [COrdID=80]
- ix. F_GARAN1221 – SELL – 750 Quantity – 7.30 TRY – Day [COrdID=90]

Expected messages are received. Problem with messages

2. For instrument **F_GARAN1221**, cancel below orders and receive Execution Report messages (cancelled).

- i. (COrdID=40) F_GARAN1221 – BUY – 70 Quantity – 6.70 TRY – Day [COrdID=100]
- ii. (COrdID=70) F_GARAN1221 – SELL – 10 Quantity – 7.10 TRY – GTD (31.12.2020) [COrdID=110]

Expected messages are received. Problem with messages

3. For instrument **F_GARAN1221**, modify quantity / price of below orders and receive Execution Report messages (modified).

- i. (COrdID=30) F_GARAN1221 – BUY – 81 Quantity – 6.80 TRY – Day [COrdID=120]
- ii. (COrdID=90) F_GARAN1221 – SELL – 750 Quantity – 7.20 TRY – Day [COrdID=130]

Expected messages are received. Problem with messages

4. For instrument **F_GARAN1221**, modify time validity of the following orders and receive Execution Report messages (modified).

- i. (COrdID=10) F_GARAN1221 – BUY – 20 Quantity – 6.90 TRY – **GTD (certification date - today)** [COrdID=140]
- ii. (COrdID=60) F_GARAN1221 – BUY – 50 Quantity – 6.80 TRY – **Day** [COrdID=150]

Expected messages are received. Problem with messages

5. For instrument **F_GARAN1221**, enter order below and receive Execution Report message.

- i. F_GARAN1221 – BUY – 100 Quantity – 7.00 TRY – Day [COrdID=160]

Borsa İstanbul enters an order to match the order above. Check Execution Report and Trade Capture Report messages regarding the trade below.

- i. Trade 1: 50 Quantity 7.00 TRY

Expected messages are received. Problem with messages

6. For instrument **F_GARAN1221**, modify the order below which is partially matched and receive Execution Report message.

- i. (COrdID=160) F_GARAN1221 – BUY – **70 Quantity*** – 7.00 TRY – Day [COrdID=170]

* Order with original quantity of 100 is partially executed and remains 50 in the orderbook before modification. When order is modified as quantity 70, partially executed quantity will be extracted and passive order in the orderbook will be updated as quantity 20. Check and confirm that 20 is received in the LeavesQty field (151=20). (This warning messages is for users who send Order Cancel Replace Request for order modification.)

Expected messages are received. Problem with messages

7. For instrument **F_SAHOL1221**, enter orders below and receive Execution Report messages.

- i. F_SAHOL1221 – BUY – 50 Quantity – 10 TRY – Day [COrdID=180]
- ii. F_SAHOL1221 – SELL – 90 Quantity – 10 TRY – Day [COrdID=190]

Check Execution Report and Trade Capture Report messages regarding the trade below.

- i. Trade 1: 50 Quantity 10 TRY

Cancel order below and receive Order Cancel Reject message regarding that the order is fully matched.

- i. (CIOrdID=180) F_SAHOL1221 – BUY – 50 Quantity – 10 TRY – Day [CIOrdID=200]

Expected messages are received. Problem with messages

8. For instrument **F_SAHOL1221**, enter order below and receive Execution Report message.

- i. F_SAHOL1221 – BUY – 100 Quantity – 9.90 TRY – Day [CIOrdID=210]

Modify quantity of the order above and receive Order Cancel Reject message regarding that the maximum quantity limit is exceeded.

- i. (CIOrdID=210) F_SAHOL1221 – BUY – **10000 Quantity** – 9.90 TRY – Day [CIOrdID=220]

Expected messages are received. Problem with messages

9. For instrument **F_SAHOL1221**, enter order below and receive Execution Report message regarding that the price is out of the limits.

- i. F_SAHOL1221 – SELL – 100 Quantity – 1 TRY – Day [CIOrdID=230]

Expected messages are received. Problem with messages

MEDIUM LEVEL

CONTINUOUS AUCTION

10. For instrument **O_XU030E1221C100.000**, enter orders below and receive Execution Report messages.

- i. BUY – 100 Quantity – 0.50 TRY – Day – Position = Close [CfOrdID=240]
- ii. SELL – 60 Quantity – Market to Limit – GTD (31.12.2020) [CfOrdID=250]

Check Execution Report and Trade Capture Report messages regarding the trade below.

- i. Trade 1: 60 Quantity 0.50 TRY

Expected messages are received. Problem with messages

11. For instrument **O_XU030E1221C100.000**, modify the partially matched order below and receive Execution Report message.

- i. (CfOrdID=240) BUY – 50 Quantity*** – 0.50 TRY – Day [CfOrdID=260]

*** Order with original quantity of 100 is partially executed and remains 40 in the orderbook before modification. When order is modified as quantity 50, since 60 quantity of the order is executed before and there is no remaining quantity to be executed order will be removed (as fully matched). Check and confirm that 0 is received in the LeavesQty field (151=0). *(This warning messages is for users who send Order Cancel Replace Request for order modification. The ones who do not modify the order should cancel the order.)*

Expected messages are received. Problem with messages

12. For instrument **TM_O_USDTRYKE311221C3000**, enter orders below and receive Execution Report messages.

- i. BUY – 200 Quantity – 0.1 TRY – GTS (KAP) [CfOrdID=270]
- ii. SELL – 100 Quantity - Market – FOK – Position = Close [CfOrdID=280]
- iii. SELL – 250 Quantity – Market to Limit – GTC [CfOrdID=290]
- iv. BUY – 200 Quantity – Market – FAK [CfOrdID=300]

Check Execution Report and Trade Capture Report messages regarding the trades below.

- i. Trade 1: 100 Quantity 0.1 TRY
- ii. Trade 2: 100 Quantity 0.1 TRY
- iii. Trade 3: 150 Quantity 0.1 TRY

Check Execution Report message regarding the cancellation of the order below.

- i. (CfOrdID=300) 200 Quantity - Market - FAK

Expected messages are received. Problem with messages

13. For instrument **F_EURUSD1221**, enter orders below and receive Execution Report messages.

- i. BUY – 100 Quantity – 1.15 TRY – Day – Trigger Order (Same instrument Last Price = 1.14 Direction = UP) **[CfOrdID=310]**
- ii. BUY – 200 Quantity – 1.14 TRY – Day **[CfOrdID=320]**
- iii. SELL – 500 Quantity – Market to Limit - Day **[CfOrdID=330]**
- iv. BUY – 200 Quantity – 1.13 TRY – Day **[CfOrdID=340]**
- v. SELL – 150 Quantity – 1.15 TRY – Day **[CfOrdID=350]**
- vi. SELL – 200 Quantity – Market - Session State Order (KAP)– FAK **[CfOrdID=360]**
- vii. SELL – 150 Quantity – Market - Session State Order (KAP)– FAK **[CfOrdID=370]**
- viii. BUY – 200 Quantity – Market - Session State Order (KAP)– FAK **[CfOrdID=380]**
- ix. BUY – 150 Quantity – Market - Session State Order (KAP)– FAK **[CfOrdID=390]**
- x. BUY – 500 Quantity – Market - Session State Order (KAP)– FAK **[CfOrdID=400]**

Check Execution Report and Trade Capture Report messages regarding the trades below.

- i. Trade 1: 200 Quantity 1.14 TRY
- ii. Trade 2: 100 Quantity 1.14 TRY

Check Execution Report message regarding the activation of the trigger order below.

- i. (CfOrdID = 310) 100 Quantity – 1.15 TRY – Day – Trigger Order (Same instrument Last Price = 1.14 Direction = UP)

Expected messages are received. Problem with messages

14. For instrument **F_XU0301221**, enter orders below and receive Execution Report messages.

- i. BUY – 100 Quantity – 100 TRY – Day – Off-hours **[CfOrdID=410]**
- ii. BUY – 90 Quantity – 101 TRY – GTD (**certification date - today**) – Off-hours **[CfOrdID=420]**
- iii. SELL – 80 Quantity – 103 TRY – GTD (31.12.2020) – Off-hours **[CfOrdID=430]**
- iv. SELL – 120 Quantity – 104 TRY – GTD (31.12.2020) **[CfOrdID=440]**
- v. SELL – 100 Quantity – 102 TRY – Day **[CfOrdID=450]**

Expected messages are received. Problem with messages

15. For instrument **F_USDTRYM2-M1**, enter orders below and receive Execution Report messages.
- i. BUY – 50 Quantity – 0.10 TRY – Day **[CIOrdID=460]**
 - ii. BUY – 60 Quantity – 0.11 TRY – Day **[CIOrdID=470]**
 - iii. SELL – 30 Quantity – 0.12 TRY – FOK **[CIOrdID=480]**
 - iv. SELL – 40 Quantity – Market – FAK **[CIOrdID=490]**

Check Execution Report and Trade Capture Report messages regarding the trades below.

- i. Trade 1: 50 Quantity 0.0002 TRY
- ii. Trade 2: 50 Quantity 0.0002 TRY
- iii. Trade 3: 40 Quantity (-0.0002 TRY)

Check Execution Report message regarding the cancellation of the order below.

- i. (CIOrdID=480) SELL – 30 Quantity – 0.12 TRY – FOK

Expected messages are received. Problem with messages

TRADE REPORT

NOTE: TradeReportID given by user is recommended to be produced from the same numbering series as the CIOrdID. We applied this principle for test steps below and continued numbering from the last used CIOrdID value. TradeReportID must be entered as indicated below each step.

NOTE II: For equity options TrdType (828) = 626, for equity futures TrdType (828) = 624.

NOTE III: Trade reports for F_AKBNK1221 will be subject to exchange approval during the test.

NOTE IV: For trade reports, messages should be sent with Position = Open.

16. For instrument **O_AKBNKE1221P8.0**, enter BUY side of TradeReport with following details: 7000 quantity at price level 0.5 TRY with counterparty code BIXXX and check Trade Capture Report Ack message is received. **[TradeReportID:1010]**

Expected messages are received. Problem with messages

17. For instrument **O_AKBNKE1221P8.0**, Exchange operator will enter the Sell side of the Trade Report of which you entered Buy side with TradeReportID=1010. Check the Trade Capture Report – Confirmation message indicating your TradeReport is matched by the system.

- i. (TradeReportRefID=1010) **O_AKBNKE1221P8.0** 7000 Quantity 0,5 TRY

Expected messages are received. Problem with messages

18. For instrument **O_AKBNKE1221P8.0**, enter SELL side of TradeReport with following details: 8000 quantity at price level 0.5 TRY with counterparty code BIXXX and check Trade Capture Report Ack message is received. **[TradeReportID:1020]**

Expected messages are received. Problem with messages

19. For instrument **O_AKBNKE1221P8.0**, cancel SELL side of Trade Report (TradeReportRefID: 1020) and check Trade Capture Report Ack message is received. **[TradeReportID:1030]**

Expected messages are received. Problem with messages

20. For instrument **O_AKBNKE1221P8.0**, Exchange operator will enter the BUY side of a Trade Report on behalf of BIXXX participant with counterparty is set to your participant code. Details: 7500 quantity at price level 0.6 TRY
Check Trade Capture Report – Notification message is received.

- i. **O_AKBNKE1221P8.0** 7500 Quantity 0.6 TRY BUY Counterparty: BIXXX

Expected messages are received. Problem with messages

Enter the SELL side of the TradeReport sent by BIXXX participant in order to confirm the trade report and check Trade Capture Report Ack message is received. (7500 quantity – 0.6 TRY, Counterparty: BIXXX). **[TradeReportID: 1040]**

Expected messages are received. Problem with messages

Check the Trade Capture Report – Confirmation message is received indicating that your Trade Report is matched by the system.

- i. (TradeReportRefID=1040) **O_AKBNKE1221P8.0** 7500 Quantity 0.6 TRY Counterparty: BIXXX

Expected messages are received. Problem with messages

Check Trade Report – Delete Notification message is received indicating that Trade Capture Report - Notification message sent previously is not valid anymore. You have fulfilled the TradeReport waiting for your confirmation and you will receive this message to delete the notification on your side.

- i. **O_AKBNKE1221P8.0** 7500 Quantity 0.6 TRY Counterparty: BIXXX

Expected messages are received. Problem with messages

21. For instrument **O_AKBNKE1221P8.0**, Exchange operator will enter the SELL side of a Trade Report on behalf of BIXXX participant with counterparty is set to your participant code.
Details: 8500 quantity at price level 0.65 TRY
Check Trade Capture Report – Notification message is received.

- i. **O_AKBNKE1221P8.0** 8500 Quantity 0.65 TRY SELL Counterparty: BIXXX

Expected messages are received. Problem with messages

This Trade Report will be cancelled by Exchange operator on behalf of BIXXX before you confirm it. Check Trade Capture Report – Delete Notification message is received indicating that the notification previously sent is not valid anymore.

- i. **O_AKBNKE1221P8.0** 8500 Quantity 0.65 TRY SELL Counterparty: BIXXX

Expected messages are received. Problem with messages

22. For instrument **O_AKBNKE1221P8.0**, enter two sided TradeReport with following details: 9000 quantity at price level 0.55 TRY with both side partyid code is your participant code and check Trade Capture Report Ack messages are received. **[TradeReportID:1050]**

- i. (TradeReportRefID=1050) **O_AKBNKE1221P8.0** 9000 Quantity 0.55 TRY Two Party Trade Report Accepted
ii. (TradeReportRefID=1050) **O_AKBNKE1221P8.0** 9000 Quantity 0.55 TRY Two Party Trade Report Confirmation

Expected messages are received. Problem with messages

23. For instrument **F_AKBNK1221**, Exchange operator will enter two Trade Reports on behalf of BIXXX participant with counterparty is set to your participant code.
Details: 9000 quantity at price level 7.50 TRY SELL side and 8000 quantity at price level 7.55 TRY BUY side

Check Trade Capture Report – Notification message is received.

- i. **F_AKBNK1221** 9000 quantity 7.50 TRY SELL Counterparty: BIXXX
ii. **F_AKBNK1221** 8000 quantity 7.55 TRY BUY Counterparty: BIXXX

Expected messages are received. Problem with messages

Enter the counter side of the TradeReports above in order to confirm them and check Trade Capture Report Ack messages are received.

- i. **F_AKBNK1221** 9000 quantity 7.50 TRY BUY Counterparty: BIXXX
[TradeReportID:1060]
- ii. **F_AKBNK1221** 8000 quantity 7.55 TRY SELL Counterparty: BIXXX
[TradeReportID:1070]

Expected messages are received. Problem with messages

Check Trade Capture Report – Matched messages are received indicating that the TradeReports are matched.

- i. (TradeReportRefID=1060) **F_AKBNK1221** 9000 quantity 7.50 TRY
- ii. (TradeReportRefID=1070) **F_AKBNK1221** 8000 quantity 7.55 TRY

Expected messages are received. Problem with messages

The trade with TradeReportRefID=1060 will be approved by Exchange operator. Check Trade Capture Report – Novated message which indicates the approval of Exchange and trade message are received

- i. (TradeReportRefID=1060) **F_AKBNK1221** 9000 Quantity 7.50 TRY (Trade Capture Report - Novated)
- ii. (TradeReportRefID=1060) **F_AKBNK1221** 9000 Quantity 7.50 TRY (Trade Capture Report – Auto match)

Expected messages are received. Problem with messages

The trade with TradeReportRefID=1060 will be rejected by Exchange operator. Check Trade Capture Report – Rejected message is received indicating that the trade report is rejected by Exchange.

- i. (TradeReportRefID=1070) **F_AKBNK1221** 8000 Quantity 7.55 TRY (Trade Capture Report - Rejected)

Expected messages are received. Problem with messages

ON CLOSE ORDER - MATCH

24. Since On Close Order Match session is started, check Execution Report and Trade Capture Report messages regarding the trades below are received for instrument **F_EURUSD1221**.

- i. Trade 1: 200 Quantity 1,14 TRY
- ii. Trade 2: 150 Quantity 1,14 TRY
- iii. Trade 3: 200 Quantity 1,14 TRY

Expected messages are received. Problem with messages

Check Execution Report messages are received indicating that the Session State (KAP) order below is canceled.

- i. (CLOrdID=400) BUY – 500 Quantity – Market - Session State Order (KAP)– FAK

Expected messages are received. Problem with messages

AFTER HOURS SESSION

25. Check Execution Report messages are received indicating that the orders which are not off hours flagged (T+1) are paused.

Expected messages are received. Problem with messages

26. For instrument **F_XU0301221**, enter orders below and receive reject messages indicating that the orders are not off hours orders.

- i. BUY – 150 Quantity – 103 TRY – Day **[CLOrdID=500]**
- ii. BUY – 160 Quantity – 104 TRY – FAK **[CLOrdID=510]**

Expected messages are received. Problem with messages

27. For instrument **F_XU0301221**, enter orders below and receive Execution Report messages.

- i. BUY – 100 Quantity – 102 TRY – Day – Off-hours **[CLOrdID=520]**
- ii. BUY – 110 Quantity – 103 TRY – FAK – Off-hours **[CLOrdID=530]**

Check Execution Report and Trade Capture Report messages regarding the trade below.

- i. Trade 1: 80 Quantity 103 TRY

Expected messages are received. Problem with messages

ADVANCED LEVEL

TAILOR MADE INSTRUMENTS

Check Execution Report message for the following advertising order via Drop copy channel.

- i. F_TUPRS1221 - BUY – 5000 Quantity – 80 TRY – Day

Expected messages are received. Problem with messages

MARKET MAKING

Notes

- ✓ Quotes should be **Limit** priced **Day** and **Position = Open** orders unless it is noted otherwise
- ✓ There will be no response from the system for successful MassQuote entries. MassQuote Acknowledgement message will be sent if one or more Quote entry has incorrect value. MassQuote message will be validated by Exchange operator and user will be informed.
- ✓ It is strongly recommended that the QuoteIDs are taken from the same numbering series as the ClOrdID in cases where Orders and Quotes are submitted through the same FIX session. This principle is applied for test steps below and previously used ClOrdIDs/TradeReportIDs are not used.
- ✓ “QuoteEntryID” value that will be given to each quote entry is started from 1 and incremented by one for each quote entry. Given QuoteEntryIDs are expected for MassQuote messages that include more than one quotes.
- ✓ Entered successful MassQuotes will be checked from Trader Workstation by Exchange Operator.

CONTINUOUS AUCTION

32. For instrument **F_EURTRY1221**, enter MassQuote at price levels 3.20 TRY – 3.25 TRY and 20 quantity each side. **[QuoteID=5000]**

Expected messages are received. Problem with messages

33. For instrument **F_EURTRY1221**, enter MassQuote at price levels 3.22 TRY – 3.25 TRY and 20 quantity each side. Quote entry on this instrument will be updated. **[QuoteID=5010]**

Expected messages are received. Problem with messages

34. For instrument **F_EURTRY1221**, enter below order and receive Execution Report message.
i. SELL – 20 Quantity – 3.22 TRY – Day **[CIOrdID=5020]**

Check Execution Report and Trade Report messages are received for below trades.

- i. Trade 1: 20 Quantity 3.22 TRY

Expected messages are received. Problem with messages

35. For instrument **F_EURTRY1221**, update BUY side of the quote with price 3.21 TRY and quantity 20. **[QuoteID=5030]**

Expected messages are received. Problem with messages

36. For instrument **F_EURTRY1221**, update SELL side of the quote with quantity 100.

NOTE: *No acknowledgement message will be sent from the system after a successful quote update. Exchange operator will check the new quantity of the quote from Trading Workstation after quote update.*

[QuoteID=5040]

Expected messages are received. Problem with messages

37. For instrument **F_EURTRY1221**, cancel only the BUY side of the quote entered above.

[QuoteID=5050]

Expected messages are received. Problem with messages

38. For instrument **F_EURTRY1221**, cancel the SELL side of the quote entered above.

[QuoteID=5060]

Expected messages are received. Problem with messages

39. For instrument **F_EURTRY1221**, enter MassQuote only on BUY side at price level 3.23 TRY and quantity 100.

[QuoteID=5070]

Expected messages are received. Problem with messages

40. For instrument **F_EURTRY1221**, enter MassQuote only on SELL side at price level 3.27 TRY and quantity 100.

[QuoteID=5080]

Expected messages are received. Problem with messages

41. Cancel the quote on instrument **F_EURTRY1221**.

[QuoteID=5090]

Expected messages are received. Problem with messages

42. Enter a single MassQuote message on below instruments with given price levels, size and QuoteEntryID.

[QuoteID=5100]

F_EURTRY1221: BUY: 3.21 TRY 100 Quantity – SELL: 3.25 TRY 100 Quantity (*QuoteEntryID=1*)

F_YKBNK1221: BUY: 3.90 TRY 50 Quantity – SELL: 3.92 TRY 75 Quantity (*QuoteEntryID=2*)

Expected messages are received. Problem with messages

43. Enter a single MassQuote message on below instruments with given price levels, size and QuoteEntryID.

[QuoteID=5110]

F_EURTRY1221: BUY: 3.20 TRY 100 Quantity – SELL: 3.24 TRY 100 Quantity (*QuoteEntryID=1*)

F_YKBNK1221: BUY: 3.94 TRY 50 Quantity – SELL: 3.92 TRY 75 Quantity (*QuoteEntryID=2*)

Check that “Mass Quote Acknowledgement - Some Quotes Rejected” message is received due to rejection of 2nd quote entry in the MassQuote message.

Expected messages are received. Problem with messages

44. Enter a single MassQuote message on below instruments with given price levels, size and QuoteEntryID. **[QuoteID=5120]**

F_EURTRY1221: BUY: 3.25 TRY 100 Quantity – SELL: 3.22 TRY 100 Quantity (**QuoteEntryID=1**)

Check that “Mass Quote Acknowledgement – All Quotes Rejected” message is received due to rejection of all quote entries in the MassQuote message.

<input type="checkbox"/> Expected messages are received. <input type="checkbox"/> Problem with messages

SECTION 3: CLOSING THE SYSTEM

END OF DAY BATCH

Check cancel messages (Execution Report - cancelled) for Expired day orders and Good Till Date orders.

Expected messages are received. Problem with messages

Logout from the system after expected cancel messages are received. System will be restarted after End of Day Batch.

Expected messages are received. Problem with messages

NEXT DAY CONNECTION

System will be restarted with next day configuration. "Execution Report - Restatement" messages will be sent from the system for Good Till Date orders that remain open for the upcoming trading day. In order to receive these Execution Report messages, Logon message must be sent without resetting Sequence number.

- Logon message, Sequence number=1, ResetSeqNumFlag=N (34=1, 141=N or do not send field 141)
- Logon message will be received.

Expected messages are received. Problem with messages

- Logon message from the system will be sent with a Sequence number higher than 1. Client system should detect the Sequence gap and send a Resend Request message to the system. Check the Execution Report – Restatement messages that are sent from the system as response to the Resend Request.

Expected messages are received. Problem with messages

FAILOVER TO SECONDARY GATEWAY

Terminate connection with Primary FIX Gateway IP and Ports and connect to secondary FIX Gateway IP and Port provided.

- Send Logon message without resetting Sequence number and receive Logon message.

Expected messages are received. Problem with messages

- Enter below orders to the secondary system and receive Execution Report (accepted) messages:

- **F_EURUSD1221** BUY Price: 1.30 TRY Quantity: 20 (*Partition2*) **[ClOrdID=4]**
- **F_GARAN1221** BUY Price: 6.80 TRY Quantity:10 (*Partition1*) **[ClOrdID=5]**

Expected messages are received. Problem with messages
