3. Definitions and Abbreviations

Exchange	Borsa İstanbul A.Ş.
IT	Information Technologies
Service	Output of customer needs and requirements presented as a benefit to the customer.
SMS	Service Management System
Customer	Internal or external stakeholders to whom services are offered.
TSE ISO/IEC 20000-1 IT Service Management System	This standard is an international IT service management system (SMS) standard, and covers the requirements of IT service provider in order to plan, install, realize, operate, monitor, review, maintain and improve an IT service management system.

IT SERVICE MANAGEMENT SYSTEM POLICY

4. Responsibilities

Within this Policy, the Exchange's related units are responsible for management of the services under their responsibility within the framework of TSE ISO/IEC 20000-1 IT Service Management System.

5. IT Service Management System Policy Principles

IT Service Management System is applied and employed for the purpose of design, installation and management of IT services of the committed quality in order to meet the business needs of the Exchange. This Policy targets the following principles:

- To ensure that service management system is conducted in accordance with TSE ISO/IEC 20000-1 standard, and to increase maturity level of the related processes; and
- To analyze the customer needs and requirements correctly, and to ensure that IT services are rendered at the targeted level; and
- To ensure that the targeted service levels are defined, monitored, measured and reported and their performances are improved in mutual agreement with the customers; and
- To identify and operate IT service continuity and availability goals and objectives with regards to the processes executed via IT infrastructures and applications; and
- To make sure that the basic and extra support services are continued safely and with minimum interruptions as far as possible; and
- To assure satisfaction of internal/external stakeholders to whom IT services are offered; and
- To analyze the resource requirements and costs of services, and to make their capacity planning; and
- To ensure that Senior Management provides the financial investment required for acquisition and development of resources needed in respect of the services offered.

6. Miscellaneous and Final Provisions

No article has been repealed, and no temporary article or additional article has been added.

6.1 Effective Date

This Policy becomes effective as of the date it is approved by the Exchange's Board.

6.2 Execution

The provisions of this Policy are executed and enforced by the Chief Executive Officer.
