	To	Members, Data Broadcasting Organizations (VYK) and Software Providing Members

To Whom It May Concern,

As it is known, in line with the efforts to increase the product and service diversity and the demands of our members, the BISTECH System improvement and development efforts are continuing and the new version, called 2.11, is planned to be put into operation on **April 13, 2020**.

BISTECH Member Free Test Environment (pre_prod) (Access information to test environments can be found under the "BISTECH Test Environment" heading on <https://www.borsaistanbul.com/en/bistechsupport/technical-documents> page.) This will be updated with version 2.11 on March 2, 2020. As of date, it is expected to be tested by you until the new version is launched. In addition, in a test environment that will include production data on March 16-21, 2020, a rehearsal planning will be made in which our members will carry out their test scenarios in an integrated way with all the back office software they use.

Version 2.11 is planned to include the improvements listed below; Details of the changes in the relevant version, access to test environments and proofing plan will be notified to you on 28 February 2020 with a separate announcement.

- Addition of new fields to FIX Reference Data for Derivatives Market,
- Addition of the maximum PTRM Unit Collateral Information as a column on the Precious Metals Trading Terminal (GIW) Instruments screen and solving the Turkish character problem experienced in the GIWs csv / excel reports,
- PTRM Enhancements;
 - Addition of a new position limit (Total Purchase and Sale)
 - Extending the 4-eyes control scope (Removing order seconds limit, manual collective order cancellation, manual blocking / unblocking of risk group)
 - Improving the update time of the token indicating user connection status
- Addition of new fields to Fix Drop Copy for Debt Securities Market

Kindly submitted to your information.

Yours Sincerely,
