	Apr. Date	22 /02 /2017
	From	Project Management, Financial Derivatives Market, Equity Market, Information Technologies
	To	Members, Data Vendors and Independent Software Vendors

To Whom It May Concern,

Reference: Announcement dated 09/02/2017 and no 2017/16

With our referenced Announcement , information was provided on the go-live rehearsals to be performed with the participation of all the stakeholders and Data Vendors in order to test their preparations for the go-live, and it was announced that the 7th rehearsal cycle was extended to until 15/02/2017 Wednesday and in addition, an 8th rehearsal cycle was planned in Disaster Recovery Center (DRC) environment which would continue until 22/02/2017.

Upon request from our members, the DRC test environment will be kept open from the beginning of 23/02/2017 Thursday until the end of 01/03/2017 Wednesday (except during the weekend), so that our members and Data Vendors can use this environment for their preparatory activities before the go-live date, 06/03/2017. As before, the files generated at the end-of-day will be obtained from <http://connectuat.borsaistanbul.com>. Since the DRC test environment has no Co-location services, testers will not be able to use their ITCH and OUCH users.

The information regarding the BISTECH Phase-2 Derivatives go-live plan for 06/03/2017 and related connection information will be shared with a future announcement.

Kindly submitted to your information.
